Compaction Equipment
Durability for Demanding Jobs

TOUGH JOBS DEMAND TOUGH MACHINES

Bridge repair. Road maintenance. Asphalt. Conditions like these demand tough equipment. And Chicago Pneumatic delivers with a complete range of durable solutions you can count on. From tampers to trench rollers, these units are easy to service, made to last and designed to give you the power and performance you need in the toughest conditions — day after day and job after job.

Compaction Power in Confined Spaces

A fully hydraulic system makes these units easy to maneuver close to walls and borders. They're ideal for small jobs, repair work and compaction in confined areas.

For pure compaction power, turn to CP walk-behind double drum rollers. They're built for all-day productivity with full hydraulic operation as well as a large water tank that minimizes refills and protects hydraulic components. The world-class oil-cooling system also helps maintain uptime, and the durability in rugged conditions helps ensure a long service life. These units are well suited for compacting thin layers of granular soils and asphalt.
