

Husqvarna K 2500

The hydraulic K 2500 power cutter works with a traditional 16" cutting blade, and is frequently used for pre-cutting with the K 3600 MK II. This power cutter is surprisingly light and maneuverable, powerful and durable, so you can work efficiently and comfortably for longer periods. It's particularly well-suited for working indoors due to no exhaust fumes and low noise levels.

LIGHT WITH HIGH POWER

Hydraulics is an excellent way to transfer high power without the cutter becoming heavy.

NO FUMES AND LOW NOISE LEVELS

Running a hydraulic cutter means you avoid fumes and high noise levels, so they are ideal for both indoor and outdoor jobs.

REVERSIBLE CUTTING ARM

The drive belt with fully sealed transmission keeps out cutting dust for reduced wear and allows close cutting to walls and floor.

Features Husqvarna K 2500

- The water adjustment gives efficient dust management and makes operation easier and more efficient.

TECHNICAL DATA	
Power output	5,2 kW
Hydraulic flow, max	40 l/min
Hydraulic pressure	140 bar
Max cutting depth	145 mm
Arbor Size	25,4 mm
Blade diameter	400 mm
Weight (excl. cutting equipment)	8,3 kg
Vibrations front handle	7,5 m/s ²
Vibrations rear handle	5,2 m/s ²
Sound power level, guaranteed (LWA)	107 dB(A)
Sound pressure level at operators ear	85 dB(A)
