

# Miller Curber *Co.LLC*

Curbilders®

*Stands the test of time™*

## Product Overview

For over fifty years the Miller MC Series Curblders have offered unequalled performance and versatility for the placement of free-standing curb. These simple and efficient self-propelled machines operate on the extrusion principle and provide the most economical means available of constructing small to mid-sized continuous curb from either concrete or asphalt. This quick and efficient process drastically reduces the high labor costs associated with hand formed and poured curb and produces high quality, extremely dense curb at a rate of up to 15 fpm (up to 30 fpm for MC900). Miller's exclusive interchangeable extrusion auger assemblies give each Curbilder the capacity to extrude more shapes and sizes than any machine in its class, from 3-1/2" to 18" high curb. A wide variety of options allow these machines to meet the toughest specification work.

## Miller Advantages

- Every model will extrude concrete or asphalt
- Four interchangeable extrusion assemblies with auger diameters from 5" to 10"
- Extrude from right or left side of the machine
- Place curb within 1" of an obstacle
- Extrude steel rod through the curb center (optional hollow auger assembly)
- Extrude over pins (optional form)
- Two-piece 5" and 6" cast auger allowing four separate wear surfaces for extended life
- Easy access and removal of all extrusion components for maintenance and quick clean-up
- Nearly 2,000 curb choices with custom shapes available at no additional cost

MC550/650

MC900

## A Sample of the Nearly 2,000 Curb Designs

Use the following chart as a guide to determining the proper auger.

Auger Size	Cross Sectional Area		Height		Width	
	Min	Max	Min	Max	Min	Max
5"	18 sq. in.	35 sq. in.	3.5"	6"	5"	9"
6"	33 sq. in.	55 sq. in.	4"	10"	6"	14"
8"	56 sq. in.	119 sq. in.	6"	18"	8"	18"
10" *	120 sq. in.	220 sq. in.	8"	18"	10"	18"

\* MC850 and MC900 only

A high percentage of extruded curbs have a cross sectional area between 33 and 55 square inches, so every Miller Curblder is equipped with the 6" extrusion assembly as standard equipment. Assemblies of other sizes are available and can easily be retrofitted to machines in the field. Each assembly is complete and includes auger, auger shaft, auger housing, compaction tube, bearings and driven sprocket.

## PRODUCT SPECIFICATIONS

	MC550	MC650	MC850	MC900
Operating Weight	668 lb.	718 lb.	918 lb.	959 lb.
Height (steering handle down)	38"		38"	40.5"
Width	32.25"		32.25"	32.25"
Length with Form (steering handle up)	77.5"		77.5"	91.5"
Wheelbase	52.75"		52.75"	71"
Hopper Capacity	6.1 cubic feet		6.1 cubic feet	9.0 cubic feet
Standard Tire Configuration	(9) 8" dia. x 2" solid rubber		(9) 8" dia. x 2" solid rubber	(4) 4.10 x 3.50 pneumatic front + (3) 8" dia. x 2.5" solid rubber rear
Engines	13 HP Honda 14 HP Kohler		20.3 HP Honda	20.3 HP Honda
Engine Starting System	Recoil	Electric	Electric	Electric
Fuel Capacity	1.6 gal.		2.3 gal.	3.3 gal.
Standard Auger Configuration	(2) cast 6" dia. x 9" lg.		(2) cast 6" dia. x 9" lg.	(3) cast 6" dia. x 9" lg.
Optional Auger Configurations	(2) cast 5" dia. x 9" lg. (1) welded 8" dia. x 18" lg.		(2) cast 5" dia. x 9" lg. (1) welded 8" dia. x 18" lg. (1) welded 10" dia. x 18" lg.	(3) cast 5" dia. x 9" lg. (3) welded 8" dia. x 9" lg. (3) welded 10" dia. x 9" lg.
Hollow Auger Shaft (to extrude rebar)	Optional		Optional	Not available
Drive System	Automatic centrifugal clutch to enclosed 8:1 gear reducer; final auger drive chain & sprocket Extrusion process provides self-propulsion			
Steering	Tie rod with 40" steering handle			
Brake	Friction pad on steering handle			

### OTHER AVAILABLE MODELS:

- MC655** Same as MC650, but with modified frame allowing extrusion under existing guardrail.
- MC750** Same as MC650, but with two continuously turning auger assemblies, one mounted on the left and one on the right, allowing immediate changeover from right to left hand extrusion.
